*"Maximizing the Potential of the Individual Learner"*

Dear Hilton Central School District Parents,

We continue to stay informed of any updates regarding the H1N1 flu as well as recommendations and guidelines from various government agencies. Those guidelines continue to advise all in adhering to preventative measures including the practicing good hygiene. The schools in our district are experiencing increased student absences. Some parents are reporting that their children have flu-like symptoms. However, other parents are also reporting that their children have other types of symptoms not indicative of the flu.

If your child is ill, please remember to have them stay home from school until they are fever-free without medication for twenty-four hours. It is also important that students not attend any school activities during the time that they are ill.

Thank you.

Maureen Thayer  
Director of Student Services
