Biometrics is the newest and most advanced technology available today for obtaining fingerprints. We are privileged to be able to use the same equipment presently used by Federal Agencies, Law Enforcement, and the US Military. In order for a child's fingerprints to be submitted into the FBI Database if they are reported missing, they must be in the Proper FBI Certified Format. The Biometric Technology our program brings to parents allows their child's fingerprints to be immediately submitted into the FBI National Crime Information Database which makes this information immediately available to all law enforcement agencies throughout the United States.

FREE an FBI Certified **10 Digit Biometric Fingerprint Profile**.

FREE a high resolution full color **Digital Photograph** of your child.

FREE a **Child Safety Journal** which will provide law enforcement officials with all the necessary vital information about your child and other important facts they will need immediately after a child is reported missing.

FREE a **Home DNA Identification Kit** that is easy to use and lasts through generations.

There is no data basing: After each child goes through the line, parents are handed a Child Safety Journal (which contains the Biometric Fingerprints and Digital Photo) and a DNA Kit. The DNA Kit contains detailed instructions on how to use the DNA Kit at home. The only record of the visit is handed to you to take home: **No records are kept on file.** You will also be given John Walsh's Child Safety Tips. All the information provided at this Child Safety Program is recommended by child safety experts and law enforcement officials to be updated every 6 months.

If a child becomes missing, parents greatly increase their chance of quickly recovering their child if they immediately provide, an FBI Certified 10 Digit Biometric Fingerprint Profile, a DNA Sample, a High Resolution Full Color Photograph, and Current Statistical Information.
