## 2010 Summer Reading Assignment 9-12

### **Students:**

We work with you on making good independent reading choices all year, so the summer is the time for you to try to keep making good choices on your own.

The main key for success is that you read a variety of materials consistently over the summer.

To get you started, the library has agreed to let you sign out books over the summer.

**This summer's reading assignment is to read consistently over the summer from a variety of genres.**

**Guidelines for this assignment follow:**

**You will generate reading goals--with your teacher--for the summer.**

**These goals will answer the following questions:**

- **How much will you read each week?**
- **What types of reading will they do? A variety of reading is encouraged.**
- **How will you choose what to read?**
- **Where will you be able to get your reading material?**

**Again, make sure you read from a variety of sources, pick some materials that you are very comfortable reading, and some that will push you, and be aware of everything that you read...you'll be surprised how much reading you actually do.**

When you return in the fall, you will reflect on what you did to meet your summer reading goals.

Remember, this is your chance to read what you want!

Have a great and safe summer,  
The English Department
